Core Protocol Development Proposal

Proposal No: 001

Date: 2021-02-02

Description: The Ravencoin Foundation proposes to fund the incorporation of pay-to-script-hash (P2SH) functionality for asset transactions to facilitate multi-signature asset transactions and Hashed Time-Lock Contracts for RVN assets

Amount: USD \$5,000 upon merged pull request to the [Ravencoin GitHub](#)

Requirements: (1) incorporate P2SH functionality per. [BIP-0016](#) as a standard asset transaction, including unit and functional tests;

(2) submitted code must be ready for [BIP-009](#) deployment on both mainnet and testnet

Funding: Anyone interested in funding a portion of this development proposal may submit RVN to the following RVN address:

RXAnmAHpGxsN8NnEcmg3DGZw1oS2WrNWiN
